DO YOU NEED HELP WITH IT?

FRACTIONAL CIO/PM

- ✓ Scalable Architecture - Resilience
- ✓ Cyber Security
- ✓ IT Strategic Planning
- ✓ Data Driven Initiatives

1 TRANSFORMATION
Strategy

Innovation will require emerging technologies to bridge the gap: Cloud, Artificial Intelligence, Machine Learning and Automation (RPA)

2 RISK PLANNING
Mitigation

Remote work, cyber attacks, supply chain uncertainties are driving the need for stability and security

3 RESILIENCE
Capability & Capacity

Data driven initiatives require resources, scalable infrastructure and flexible architecture.
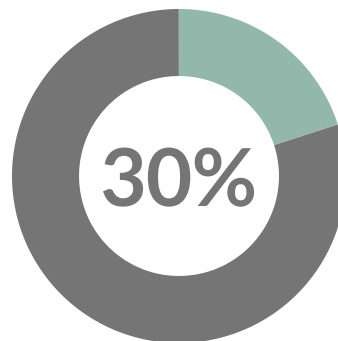

FUEL YOUR DIGITAL TRANSFORMATION | 2021 Priorities

45%
CLOUD MIGRATION

Improving performance and agility will require significant resources. The infrastructure foundation for the enterprise is the critical path to innovation and business continuity
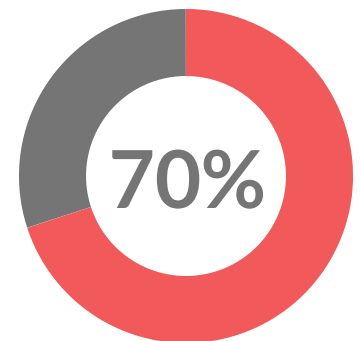

20%
BUSINESS CONTINUITY

The rapid deployment of the remote workforce has changed the dynamics and viability of existing business continuity and disaster recovery services

30%
DATA ANALYTICS

Data is the new "gold"--it can generate new revenue streams, personalize the consumer experience for brand loyalty, fuel insight and collaboration

70%
SECURITY

The global pandemic, political climate changes and struggling economics has created an urgency to address gaps in the 8-layers of security that protect an organization

PLANNING FOR THE UNCERTAINTIES
